Tutors: Karin Schwarz and team

This is just to say that we from **anamed** are very happy to meet you soon! We are very busy in preparing, and there are some important matters that we want to communicate with you.

- Your **arrival** should be on **Sunday afternoon (5p.m.)** so that we really can start on Monday morning after breakfast. Participants arriving later than Monday morning will not get any certificate.
- The **certificates** will be given on **Saturday**. So if you leave earlier, you will not get any certificate. This is to ensure that you got all the important knowledge! You may leave afterwards;
- The fees cover the **teaching, books, posters, materials needed, food and accommodation**. If you want to buy additional copies for your NGO, you are welcome to do so on a good price, as long as they are available.
- Bed sheets, towels and mosquito nets are available.
- Any translations during the course will be done by the participants themselves!

Fee for the seminar

The fee for African people or expatriates living in **Africa is 250 Euro**, (or equivalent in USD, or in Malawi Kwacha). For people **travelling from Europe** the price is **500 Euro**. Please feel free to ask us for sponsorship if you are in need.

This is an **all-inclusive price**, and includes food, accommodation, books, some seeds, posters and all seminar materials. Transport costs and any insurance required remains the responsibility of the participant. If participants require more books and posters for their project, they are available for sale at a reduced price during the seminar.

Payment of the fee: The fee must be paid on arrival. No cheques can be accepted.

If you sponsor a participant, please pay the fee in advance onto our account, please write us.

The following are important aspects of our seminars:

1. Our emphasis on working at the grass-roots, encouraging and supporting local people in developing and extending the skills they already have.
 2. By introducing *Artemisia annua*, enabling healers, pastors, missionaries and health workers to become much more independent and successful in their treatment of malaria.
 3. After the seminar, participants will be able to treat Malaria effectively with medicinal plants, in particular with *Artemisia annua*. Each participant will be given seeds and be taught how to grow this delicate but extremely valuable plant. Furthermore, participants will be able to recognize at least 20 other medicinal plants, to produce different soaps, different medicinal oils and ointments, black stones for snake-bites and to use and construct a solar oven, etc.
 4. It is important that all participants have a commitment both to practicing what they learn and to teaching others, for example by conducting a similar seminar in Natural Medicine themselves, at least for a weekend.
 5. It must be made clear to all prospective participants that they receive no fees for their attendance.
 6. Transport costs must be met by the participants, their employer or sponsor
 7. Those participants who are **Christians should bring with them a Bible**. (Every day starts with a devotion, participation in that is voluntary)
 8. All participants should bring plant material of five medicinal plants from their region.
